## Glorious News

From Dr. J. T. Curtis, Dwight, Kan. He writes: "I not only have cured but cases of eczema in my patients with Electric Bitters, but I cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. Its an excellent remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50 cents. Satisfaction guaranteed by all druggists.

## Horrible Death.

Paulina, Ia., Sept. 10.—Rev. H. Grefe, pastor of the Lutheran church in Germantown, Iowa, Sunday night burned to death before the eyes of his children and several other persons while pinned beneath a wrecked motor car. The blaze was started from a lantern with which his rescuers were working. The children were thrown clear when the car upset. Their cries brought persons in the neighborhood to the rescue. One had a lantern. Gasoline from the oil tank of the machine had spread to the wreck. The man holding the lantern dropped it. Instantly the wreck was in flames. The rescuers made frantic efforts to aid the clergyman, several persons suffering severe burns trying to raise the burning machine from his body. Rev. Mr. Grefe met death with prayers on his lips.

### His Only Chance.

The man who has never become so vitally important to lift a first class lot of earth or lay a corner stone, drive a last spike may as well try to become reconciled to the fact that posterity will have to honor him, if he is to be honored.

## Rosy As A Girl.

Summit, N. C.—In a letter received from this place, Mr. J. W. Church, the notary public, says: "My wife had been ailing for nearly 12 years from female ailments, and at times was unable to leave the house. She suffered agony with her side and back. We tried physicians for years without relief. After these treatments all failed, she took Cardui and gained in weight at once. Now she is red and rosy as a school girl." Cardui, as a tonic for women, has brought remarkable results. It relieves pain and misery and is the ideal tonic for young and old. Try it. At all druggists.

## DESIGNS IN DRAPERIES

STYLES OFFERED GIVE HOUSE-  
WIVES A WIDE CHOICE.

For Summer Curtains, Coolness and  
Fresh Appearance is All Important—  
Cretonne or Chintz Sash  
Are the Present Favorites.

The city housekeeper who must stay in town all summer does not bother with draperies. Her sole need is air and if she be sensible she sticks to undraped windows and doors. For the suburban and country house, however, curtaining is all important. Never has the choice of these been wider or more artistic than this season, and the woman who must retain her house or furnish a new one is to be envied.

In selecting summer curtains two things are important: The fabrics chosen must be cool and fresh looking and they must be washable. Heavy draperies are impractical, because they are inappropriate. This eliminates brocades, silks and satins, velvets and wool.

In curtaining a summer house choose nothing that will be ruined by open windows. Where double curtains are used they should be easily manipulated on the rods.

Unless a bedroom has plenty of windows double curtains should not be used. Some housekeepers prefer the cretonne or chintz sash curtains. These hang to the sill and work loosely on rods. While they shut out more air than the net or lace curtain they darken a room better, and if properly hung can be pushed into small compass at night.

There is a fancy now for the valance across the top of the window. This may be a ten-inch ruffle run on a rod; but the shaped and stiffened valance is enjoying quite a revival.

In treating any window or door, remember the simpler the effect and the straighter the lines the better taste. Puffed and much draped hangings are bad form.

For these heavy curtains or draperies are shown a variety of printed chintzes, taffetas—linen and cotton—and cretonnes of foreign and domestic make. The coloring of even the cheaper grades is artistic and one can find flowers, foliage and birds in any desired color. The English glazed chintz is especially effective and washes well. Its chief objection is easy wrinkling.

### Yeast Cakes.

One quart thick buttermilk, one pint corn meal, one-half pint flour, one large yeast cake soaked in just enough water to cover. One-half teaspoon ginger may be added, but it is not necessary.

Put the buttermilk over the fire in a granite pan and bring to a boil, then stir in the corn meal and flour, which have been sifted together. If ginger is used it can be added as it is cooked also. This should be of about the consistency of mush when cooked. When lukewarm add the soaked yeast cake and set in a moderately warm place to sour, which should take from twelve to twenty-four hours. When it bubbles or smells quite sour, it is ready to be mixed with more meal, enough to roll out on a bread board. Then cut and place when it will dry.

### Devil's Food.

Cream one cup of light brown sugar with one-fourth of a cupful of butter and one egg. Add one cupful of sour milk or cream, first dissolving in it one teaspoonful of soda. Stir in one teaspoonful of vanilla, and one-fourth cupful of sifted flour and two squares of bitter chocolate dissolved in three-fourths of a cupful of boiling water. If sour cream is used instead of milk use half the quantity of butter. Bake in two layers or in a loaf in a moderate oven.

### Hints About Steel.

To clean articles made of steel, rub with a piece of raw potato, unsinked lime or powdered pumice. Skates, sled runners, etc., may be prevented from rusting, when they are stored away for the summer, by coating them with a mixture of lard, pulverized black lead and camphor.

To remove rust from steel, rub with salt wet with hot vinegar; scour and rinse with boiling water.

Dry with a clean flannel cloth and polish with sweet oil.

### Washing Eggs.

The ordinary way to break an egg is to hit it against another egg or over the edge of the mixing bowl and let the contents stream over the side of the shell without considering whether the latter is clean or not. Even if there is no visible dirt, the shell may not be as clean as it seems, for it may have come from a dirty nest or have been untidily handled. Eggs should therefore always be washed before breaking.

### Ice Cream Coffee.

Put a good-sized spoon of vanilla ice cream into the bottom of a tall, large glass and fill up with chilled and iced coffee made with sugar and cream. Do not stir. Serve with long-handled spoon.

### When Bluing Clothes.

The next time you prepare your bluing water add a little salt. This helps to distribute the color and prevents the clothes from becoming streaked or blotched from the bluing.
